Matrikel Nr.3126809

This application intended for 1 semester students. It helps to orient oneself in the new environment. The application gives to the user the ability to navigate through the different campuses and classrooms. With the help of the app user can find the campus(using coordinates) he needs or the classroom. Also there is ability to check the actual timetable and menu in the Mensa(also possible to download the actual menu in pdf format by taping the list view). Additionally application gives to user access to Moodle and OWA(HS Ulm E-mail. Last picture).by pressing the contact button on action menu, user can send a message to one of the professors. The app is quite handy. It allows you to access all frequently used information and sources
